CONNECT YOUR WI-FI THERMOSTAT TO YOUR HOME NETWORK

6. Confirm your thermostat is in Wi-Fi setup mode. The signal indicator will be strobing.
7. Open the app and select **Connect a new thermostat** from the Login screen. **IMPORTANT: DO NOT LOG IN.**
8. A list with available thermostats will appear on the screen. Select the thermostat you wish to connect to your network.

Select your home network.

9. Tap **Next** to scan for your home network.
10. Select your home network from the list.

Connecting to your home network.

11. We recommend that you select **Show Password**. Enter the password to your home Wi-Fi network.
12. Tap **Finish**.

ADD THERMOSTAT TO USER ACCOUNT

13. Enter your Email Address and Password.
14. Tap **Login**. The MAC ID for the thermostat will be filled in the box. Do not change it.
15. Enter a name for your thermostat (i.e. Office, Den, Kitchen), thermostat location (i.e. House, Cabin, Cottage), Zip Code and Time Zone.
16. If you know your HVAC contractor's contact information, enter it and then tap **Done**.
17. **Congratulations!** You have successfully registered your thermostat. You can now access and control your thermostat from your mobile device.

Add Thermostat to User Account

Your thermostat has been successfully connected. Now Login to connect it to your account.
